ROZBERY OF MONEY .- A female named Maria Brown. was arrested for having at various times stolen \$43 from Mrs. Margaret Simmons, No. 43 Monroe street, with whom she had been living. Committed.

STARRED .- A colored female named Hetty Ann Joseph, was last night arrested for having inflicted a very severe with a knife. She was fully committed to answer for this most outrageous assault.

ROBEING AN APOTHECARY.-Last evening a colored woman named Lucy Ann Johnson, having in her possession two large glass jers, while she was passing the corner of Chatham and Mott streets, was arrested by an officer, one was filled with prepared chalk and the other with soda powders. The articles were no doubt stolen. Apply to officers at ! Lower Police. In the mean time the woman is fully con. itted. ARREST OF A FUGITIVE .- Officers Ostram and Joseph ar-

rested a young man named William Anderson, who stands | 12 50. Shorts 9c; Ship Stuffs 1Sc, retail sales. charged with the crime of having induced the son of Mr. William Jones, No. 46 Greenwich street, to rob his father of \$700, and then to rob him of it. The scoundrel at the time about six weeks since was missing, but this day was found by the officers at the "Hock." Fully committed. HORRIBLE OUTRAGE RESULTING IN DEATH .- Last Tues

day afternoon the wife of Joshua Towgood, aged nearly 60 years, aunt to a man named Cornelius Jackson, (all colored people, residing in 22d street, opposite to what is called Jackson's Row) was on the point of death. Jackson, suppasing that he had a lien on his relative's property, thrust himself into the presence of the old man, demanding his rights. The old man resisted any interference, when Jackon knocked him down and then cruelly kicked him in the andomen. The old man lingered till Saturday morning, when he died about 6 or 7 o'clock from the effects of the jujuries. The Coroner summoned a jury in the case yesterday, and their verdict was, that the old man came to his ceath from the injuries inflicted by Jackson, and he was secordingly arrested.

Naval Court Martial on board the U. S. ship North Carolina. SATURDAY, March 13.

The Court met as usual, and the record having been read The JUDGE ADVOCATE resumed the reading of the official report of Commander Mackenzie to the Secretary of the Navy, which having been completed, he called

Midshipman Hays, who was subjected to a long examina tion, which elicited nothing which has not been previously

Alexander McKie, one of the discharged prisoners, was then called and sworn. Among other important matter, he testified as follows:

I heard the Commander address the crew, on the Sunday after the execution. He read Mr. Spencer's letters and said he was suisfied that the young man had been lying to him for half an hour previous to his death. I was first placed in n the Sunday before our arrival at St. Thomas. It a hag on the Sunday before our arrival at St. Thomas. It was tied over my head. Serjeant Gawtry superintended it. Anderson, the Captain of the Forecastle, was the one who put me in. It was tied so that I could not get my head out. Benjamin F. Green, another discharged prisoner, was a'so sworn, and his examination continued up till 3 o'clock without showing any thing of importance, when it was suspended, and the Court adjourned till 10 o'clock this (Mon-

HORRID !- Fool-hardiness in jumping off railread cars while moving was fatally exemplified the other day at Rochester. The hands employed about the Albany and Rochester Railroad at Rochester are somewhat in the habit of jumping on and off the trains between the Depot and Railroad workshop, which are at opposite ends of the Railroad Bridge across the Genesee. When the train for the East was leaving Rochester on Monday, one of the men, named Conover, jumped from the engine as it was nearing the workshop. He must have slipped and fell back on the track, for a jolt occasioned to the passenger cars was instantly folnwed by a cry from spectators that the ill-fated man was instantaneously killed! The wheels passed over his heart! He was recently married. [Albany Atlas.

ANOTHER EARTHQUAKE .- On Thursday night, the 16th inst., between 11 and 12 o'clock, we were visited by another earthquake; and in the opinion of many of those who felt it, the shock and duration were greater than the one which occurred a short time ago. The apparent agitation or vibra tion, says one who was awake at the time, was from west to east, and there appeared to be three throes or shocks succeeding each other at very short intervals, accompanied by a rushing noise. It was so violent as to make the shutters and sashes in the windows rattle. [St. Louis Rep., 18th.

Commercial and Moncy Matters.

SATURDAY, March 18. There was a moderate amount of business done to-day with no material change. City Fives improved 1; Mo hawk 1. Harlem declined 1; Bank of Commerce, full, 1. Nothing doing in Foreign Exchanges. Inland bills are without much activity or change. Mobile 18 a 19; N Orleans 2 a 2½ prem; Cincinnati 1½ a 2 disc; Louisville 1 a 1½. The Herald is in error in saving that the Canal Bank o the contrary are devoting all their energies to place the Bank in a position to do business during the next season on a perfectly sound and strong basis. Since the resumption in December the Directors have declined doing any new business, but have been engaged in closing up the old affairs, collecting, &c &c, and in order to do this in the most economical manner, have discharged all the officers of the Bank not needed for this purpose; and from this fact has probably arisen the report that the Bank was going into liquidation. The Directors have been very successful in their efforts to collect the debts of the Bank and have been enabled to repay a large portion of the funds advanced by friends of the Bank, to enable it to resume specie payments in December last. At the commencement of the next busiless season they expect to be in a strong attitude and ready to to a sale and extensive business. The liabilities are how sound, being by the last report Circulation \$42,700; Deposits \$15,410; Specie \$23,805; Total Assets \$143,849. it will be remembered that at the last session of the Legislature of New-Jersey a bill was introduced for the repeal of certain Bank Charters, among the rest it embraced the Bank of Planifield, which was chartered in the session of 1 37, and which has lain dor cant until this time. After much discussion on the subject this Bank was stricken out, and the tril became a law. A few weeks since, Plainfield was visited by Mr. ----, who stated himself to be the agent of Mr. Beach, of the San newspaper, who offered to susscribe to the stock and pay in a targe amount in specie, for the purpose of putting this Bank into operation. His offers were very fair and heeral, and his fame as financier had reached Plainfield some time since, especially his financial operations in Jacksonville, Ulster, Malone, and last, though not least, our old tavorite, Monmouth; but the Commissioners whose duty it was to open the books declined to act until they could visit New-York and make the requisite inquiries. They have done so, and the result is, they still hesitate, and it is to be hoped that they will not saffer the Bank to go into operation under the control of any but those who will conduct it in a strictly legitimate manner. Mr. Beach says they may appoint such men for President and Directors as they please; all he asks is the 'Cashier.' The feelings of the Plainfield people are decidedly hostile to such financial operations, and much as the citizens desire to see the Plainfield Bank go into operation, yet such is the opposition to this arrangement that it

I Jayne's Tonic Vermifuge .- Some medi cines warranted to "destroy worms in children,' are very well calculated to destroy the children too. This is not the case with Jayne's Tonic Vermifuge. It does not contain a single ingredient which can barm the most delicate infant, and yet it expels worms from the system with a facility, and certainty, perfectly astonishing. Nor is this its only sanative property: it is a fine stemachic, and in remutent and attermittent fevers has been administered with most gratitying results. Obstinate cases of Piles, have yielded to its influence, and its tonic qualities render it an excellent med-icine in the convalescent stage of all diseases. IT Apprentices' Library.—A meeting of citizens will be held at the Apprentices' Library in Crosby st. between Broome and Grand streets, on Tuesday evening,

21st inst, at half past 7 o'clock.

The object is to lay before the meeting the merits its of the above named Institution explain its present condition, and to take into consideration what means are neces-sary to ensure its continuance and increase its usefulness. It is believed to be an Institution on which the moral and intellectual condition of a very large portion of the youth of our city depends; thousands of whom can only look to it for aid, to amend an almost totally neglected education, and thousands will embrace its advantages with very little persuasion whilst learning trades; and thus redeem their leisure hours from vicious pursuits, in applying themselves to the acquisition of knowledge, and confirming habits which alone will lead them to respectability and usefulness. This step is taken at the suggestion of some of our most respectable and benevolent fellow citizens.

GGRAVATED CASE OF SCRO-A FULA, with nine large ulcers on the leg; entirely cured, (after being given up as incurable by Physicians.) by BRISTOL'S SARSAPARILLA.

ANOTHER PROOF OF THE VIRTUES OF BRIS-TOL'S SARSAPARILLA.—The following is one of the many hundreds who are daily testifying to the superiority of Bristol's Sarsaparilla over the many nontrums puffed into the notice of the community—whereas Bristol's Sarsaparilla

performs all it purports to 40, and gives universal satisfac-tion to those who have had the article and given it a fair Mr. C. C. Bristol: Sic, there have been but few events in my life more pleasing to me than the one that forms the basis of the statement I am about to make, relative to the basis of the statement I am about to make, relative to the astonishing cure performed by your Sarsaparilia on my son Charles, aged 17 years. Charles from infancy was afflicted with scrolula, showing at different periods evident marks of the existence of that dire disease, on the glands of the neck and various parts of the body, whenever he had taken cold. There was nothing, however, of a very alarming character visible upon him until the spring of 1832, when

cold. There was nothing, however, of a very atarming character visible upon him until the spring of 1832, when the S-rofola made its appearance about his eyes, which so affected them as to cause severe distress and inflammation, seriously affecting his sight.

The disease next appeared on his left leg, assuming a very dangerous and fearful form, spreading rapidly from his knee to his ankles. At dithers was but very little hope of his being sayed without the loss of the leg by amputation, or the dreadful and borrid fatte of being eaten up alive by his distressing malady, the scrofola. In vain was the skill and distressing malady, the scrofula. In vain was the skill am order to arrest this fearful and wasting disease. All the various remedies prescribed by physicians, as well as the nu-merous nostrums vended as curealls, were resorted to with-

away to a mere skeleton.

In this dreadful condition, with nine running and eating ulcers on the leg, the most of them resembling eating cancers, we concluded that there were no medicines or appli cers, we concluded that there were no medicines or appli-cations that could possibly have any agency in subduing this distressing and painful disease, the scrofula. At this crisis, a friend providentially recommended Bristol's Sarsa-parilla, and at the same time referred to persons who had been cured by it, who were afflicted with scrofula in its worst possible form. As a last resort, with a faint hope that my son might yet be saved under the blessing of the great Dispenser of every blessing to mankind, I commenced ad-ministering to my son Bristol's Sarsaparilla, in July, 1841. After using it a short time, we discovered a change for the better, and in a few montas his leg was nearly well, leaving only the scars to tell where the discovering the search of the only the scars to tell where the ulcerations had been. He had various other afflictions, all of which, I am happy to say, with a heart filled with joy and grattinde, are now removed, and Charles perfectly cured by Bristol's Sarsapavilla I should fail in the attempt to speak of your Sarsaparilla as it deserves. Language is too faint, and my abilities too feeble to express the high estimation in which I hold your invaluable preparation of Sarsaparilla. It will be a pleasure to me to satisfy any one who may desire to see my

son, at No. 186 Hester-street.

PARILLA.—The following is one of the many hundreds who
who are daily testifying of the superiority of Bristol's Sarsaparilla over the many nostrums puffed into the notice of
the community—whereas Bristol's Sarsaparsila performs all
it purports to do, and gives universal satisfaction to those
who have had the article and given it a fair trial:

NEW-YORK, Jan. 19, 1343.

Mr. C. C. Bristol-Sir: The happy effect produced upon my son, 6 years of age, through the use of your valuable preparation of Sarsaparila, induces me to offer to the pub-lic my cheerful recommendation of the same. My son has been afflicted with an obstinate scrofulous of fection, attended with extensive nicerations about the head, both loternal and external, baving been more or less afflict-

both internal and external, having been more or less amicteu with this aisease from his birth.

I am now pleased to inform you that he is now enjoying
good health, perfectly cured by your Sars.perilla alone—
after fruitless attempts of other medicines and remedies by
the profession. It would afford me pleasure at any time to
confer with any who may desire to know of the airre and
there of Bristoff's Sarswoardia, at my store, 209 Stanton-st., effects of Bristol's Sarsaparilla, at my store, 209 Stantons or at my dwelling, 86 Suffolk st. N. Y. Yours respectful J. L. BURNETT.

J. L. BURNETT.

The attempt to force spurious preparations of Sarseparilla into market on the reputation of the genuine Bristol's Sarsaparilla, which has been proving itself for more than seven years, meets with but slim success where the real article is known. Read the following from the Watertown, N. Y. Register of Jan. 13, 1843.

"We would call the attention of the public to Mr. A. B. Hull's advertisement in another column. The wonderful cures effected by Bristol's Extract of Sarsaparilla, is in reality asynthetic properties.

cures effected by Bristol's Extract of Sarsaparilla, is in reality astonishing the world. We are informed by the Agent for this county that it selfs with great rapidity; answering the fondest expectations of those who are a Gicted with scrafula and other infirmaties of the bloed."

17 The cures performed by Bristol's Sarsaparilla are real, and what is more, the testimony is voluntary and from undoubted and reliable sources. Every case which has been published is true, and the patient can be seen. The operation of the medicine is slow, put positive—not of the narcotic class, which ease paul for a little time, and leave the person worse than when he commenced. The spurious the person worse than when he commenced. The spurious preparations have a very happy effect in this way. The true article has the written signature of G.C. Skistot. across the cork.

DEXTER. Feb. 6, 1843.

DEXTER, Feb. 6, 1843. Mr. A. B. Hull, Druggist, Watertown:

Sir—A daughter of mine was attacked with the scarlet fever in the winter of 1840, from the effects of which she contracted a severe scrotalous disease. Many remedies were made use of by skillful physicians to eradicate the disease, but without effect. I then, as a last resort tried Brisease, but without effect. ease, but without effect. I then, as a last resort tried Bristol's Sarsaparila, one bottle of which profuced a surprising change in the disease. I administered to her three bottles more, and I have now every reason to believe it has effected a radical and permanent cure.

Having experienced its beneficial effects in the manner above stated, it is with pleasure I bear testimony to its efficacy in the case of scrofalous diseases.
